LEEFORD HEALTHCARE LTD.
Leaders in Healthcare

Leeford Healthcare Ltd.

Leaders in Healthcare

LEEFORD Healthcare Ltd with its vast presence in the market, is now marching at the forefront of Indian Pharmaceutical Industry. Keeping innovation and optimism at the heart of our operations, we manufacture all our products at best-in-class, state-of-the-art facilities conforming over shelf life, to the accepted standards of efficacy, quality, purity & safety. Leeford, characterised by its values, marketing ethics & transparency in business operations has become a renowned & trustworthy name among healthcare professionals across geographies. We are recognized for our superlative quality and enduring consumer conviction. We incorporate latest technologies, introduce new products and upgrade & strengthen our network for business growth. We are sure that with our unique business model, corporate values & Harmonized Quality Systems we shall reach new heights in years to come...

FASTEST GROWING
Pharmaceutical Company
in the country

1 We Provide Medicines to
Billion Patients

Operating in **3 Divisions**

Healthcare 
Cosmacia

35+

Therapeutic Categories covering
a wide product portfolio

28 States

750+ Districts, 90+ Distributors
7500+ Stockists and counting

Constant investment in
innovation & research

Socially responsible
and ethical **Business**
practices

Industry

Nationwide acknowledgment &
acceptance for uncompromising quality

Formulations **Exports**
to **3 continents**

When
Diabetes
Control Matters

Debistal-GM *Tablets*

Glimepiride 2 mg, Pioglitazone 15 mg and Metformin (SR) 500 mg

- Safe & effective combination for Type II Diabetes mellitus
- Provides potent & long duration of action
- Reduces short-term glycaemic fluctuations

DOSAGE: Debistal-GM should be given once daily with the first meal of the day. The maximum recommended daily dose in adults should not exceed 3 tablets. Tablet should not be crushed or chewed and should be taken as a whole with water.

ADVANTAGES OF **RESPULES**

- Local or direct delivery of microgram drug quantities to the site of action with fewer systemic side effects than oral therapy.
- Rapid onset of action by the large surface area of the lung combined with the extensive blood flow.
- Non-invasive self-administration, reducing systemic side effects and enabling lower doses than might otherwise required.
- Improved bioavailability over orally delivered & thus better and immediate effects.

Flutivin Tropivent-L Weldinide 0.5 Welbusol-1.25 Welbusol-B 0.5
